Emails**

We or you should not be in a hurry to develop them. First they should be studied to see how best to use them. Next selective logging to remove the less desirable trees. Then create a small gravel parking lot so people can hike, bird watch and hunt on the land using the loggers trails. The state should take every opportunity to enlarge our park and trail property for future generations. With such a small part of the land in our state that can be used by the public and as time goes on it will only get harder to enlarge our park system. I have always felt that the state parks belong to all of us which makes me wonder why meetings are not being held across the state. Some say that the real focus is on trying to sell them to make a small group of people happy I hope this is not so.

---

Attn. Mr. Ellis: Thank you and your staff for taking the time to patiently listen to the people of Missouri express themselves as to their passionate love for their parks. Yes, we do! Please retain the latest parks that have been acquired even though the acquisition process was somewhat questionable, the result is a great win for the public.

1. We do not have too many parks. The total acreage of our parks is a little more than one third of 1% of the total acreage of the state of Missouri.
2. Let's take a step toward making the parks financially self-sustaining. Let's ask a friend in the legislature to introduce and pass legislation that will require that all sales taxes collected within the parks be returned to the parks to be used for maintenance. This would begin to reduce the backlog of repairs and maintenance that is now needed.

3. A \$200,000.00 repair and maintenance program for the parks will create hundreds of jobs all across Missouri.
4. A \$200,000.00 repair program will have an economic impact of at least \$1 Million. (Economist estimate that the economic multiplier would be between 5 and 10. Using only 5, the economic impact result is \$1Million.)
5. Improving our state parks is an investment in the tourism business of the state. Tourism adds to our state gross income with the least amount of environmental cost.
6. Finally, I would recommend that the Parks Division develop a policy that prohibits naming a state park for any sitting elected official. Every elected official has his or her detractors, which attaches to the innocent park. To name a park for a previously elected official might be acceptable if the official was deceased for at least 5 years. Thank you for your consideration of these suggestions.

---

I have been reading about the possible sale of 3 or 4 State Parks in Missouri. My Husband and myself are against the sale of any State Parks. There are enough subdivisions, Outlet malls, parking lots and streets. Pretty soon there will be no open land for people to enjoy not to mention that much of the flooding is from runoff because there is nowhere for the water to be absorbed. Thank you for taking our opinion into consideration.

---

I see that there will be public comment through the website but I am curious if any meeting minutes will be published from the public meetings? I am located in St. Louis area and attending the meetings is not possible but I would still like to learn what was discussed. I also have concern for the future of Eleven Point river state park as this is not mentioned in either email. Why is this not mentioned?

---

Overall, I think keeping the parks and public lands is a high priority and interest of mine. This is one of the few things that we can preserve for future generations to come.

---

Public property that is not developed is becoming scarce. If Missouri does not hold on to every piece of undeveloped land it owns, it won't be us who suffer, it will be the generations to come. What Mr. Trump announced today is also a move to reduce the number of acres protected by, in this case, the Federal Government, for the public good.

---

I oppose any selling of land owned by the citizens of Missouri through the DNR and specifically the dept of parks. Doing so is a betrayal to future generations of outdoor recreation seekers and environmental quality as a whole.

---

These new parks need to be kept as part of the DNR. Open lands are a precious commodity and need to be preserved. There are fewer and fewer open spaces and we need to keep the open space we have. People of Missouri overwhelmingly voted on the recent tax measure to support the parks. This administration needs to honor their support. Develop the land when the budget allows.

---

When we buy land do not sale it. I love state parks. You build them people will show. Make them have RV and tents and wifi in all state parks make them fun. Save them build them just all us do if need to. After sold they build houses and take down trees. State need save lands all we can.

---

Do not sell off Missouri new State Parks. These parks should be developed for there natural beauty and for the enjoyment of all Missourians.

---

Dont sell the 4 parks!! We won't ever get the land back! I know the locations of three of them and they are great additions to the sites they will join. I was born in West Plains, raised town/farm, hunted, fished, floated (still do--100-200 miles/yr), hiked, camped, etc my entire life. Natural areas are so important to soul for so many reasons. Even if people don't use them very often they know they are there. I don't understand your reasoning for selling or the legislature or governor but its a huge mistake.

Zip Code: 65201

To whom it may concern: I am 75 years old and have lived in Missouri all my life. I am no fan of the Sierra Club, but for once they have it right. Missouri does not need to sell any Park property, despite what Gov. Greitens thinks. The Bryant Creek Park, the Jay Nixon State Park and the Ozark Mountain State Park should all remain part of the Park System. Also the Eleven Point State Park, although I understand that is a different issue. Rock Bridge Park is the only Missouri Park that I personally use, but there are way to many people in Missouri to even consider reducing the total park area. I don't use a computer, and there was no address included in the Columbia Tribune article I read on this subject, so I hope this reaches the right place.

---

Zip Code: 63122

Please do not sell the parks. Keep public lands for future generations.

---

Zip Code: 65609

I would like to see no trash, horse/walking trails & as much nature & natural things left.  
NO ATVS

---

Zip Code: 65655

Leave natural as possible walking trails no camping no hunting maybe trapping just leave natural as possible.

---

Zip Code: 65775

I would like to see the Ozark Mtn. & Bryant Creek parks left in their natural states as close as possible. Walking and horse trails would be good.

Zip Code: 65775

Clean and clear water hiking/plenty of trails  
clean trails no 4-wheelers stay natural

---

Zip Code: 65626

Keep the parks as natural & clean as possible. Keep plenty of wildlife & natural habitats. Trapping should be allowed. No four-wheelers or public access (camping river access ect.)

---

Zip Code: 65775

Bryant Creek St. Park: Walking & horse trails would be nice Leave as natural as possible No ATV's (Hunting only if luck of draw hunting like at Caney Mtn. Refuge) No camping Trapping would be good Less human traffic the better

---

Zip Code: 65775

It would be good to have hiking & biking trails in these 3 parks. Day use areas & camping would be helpful.

---

Zip Code: 65775

WE NEED BIKE TRAILS FOR LEISURE  
(STREET BIKES) NO MOUNTAIN

Zip Code: 65777

If these state parks are sold they will be lost forever as wild lands. This would be a tragedy for future generations. Looking at a list of costs to develop the parks, I wonder if donors would sponsor a road, or a trail, etc., if their contributions were publicly & permanently acknowledged. If developing these lands for public use is not financially possible, I feel the parks should remain wild & undeveloped until such time as natural places are valued enough that money is available to save them.

---

Zip Code: 65102

To Whom It May Concern: I would like to make a suggestion regarding the future of Bryant Creek Park. It was always intended to belong to the people of the State, and having it permanently closed-off is exactly contrary to that purpose. Instead of waiting for funding for expensive park infrastructure, why not work with MDC to make it a Conservation Area, Natural Area, or State Forest instead? These options, especially a Natural Area, would require almost no infrastructure. (Another option would be to lease it to the Douglas County Commissioners to be administered by the county as a natural preserve). In order to fulfill the mission of Bryant Creek Park's establishment, it is important that (1) the shortleaf pine forest remain standing and (2) the Missouri public be allowed to use and enjoy the land. Besides, keeping state land off-limits to law-abiding citizens provides privacy for illegal or inappropriate uses, such as poaching, marijuana farming, moonshining and is modern successor, methamphetamine cooking.

1) Zip Code: 63055

Dear Mr. Ellis, In light of the too-brief period designated given consideration in deciding the fate of the three recently-acquired State Parks currently under review: Ozark Mountain State Park in Taney County; Bryant Creek State Park in Douglas County; and Jay Nixon State Park in Reynolds County.

1) It is essential at this time when natural resources are fast disappearing from the planet, that whenever it becomes possible to preserve a significant-size tract for future generations, the government should act decisively to do so. All three of these parks are part of the State's public trust and should remain held as such.

2) Public use of State Parks is at a historic high. State Parks are essential as free public recreation and instruction --especially for those most in need. The more opportunities made available, the greater the public served.

3) The Parks in question were intended to remain in their relatively natural condition; therefore, maintenance costs should be minimal. With the tax increase recently approved by state voters, you should feel confident of public support for necessary funding. In short, these parks should be retained by the Division of State Parks as a public trust to be enjoyed free of cost by the public. The reasons are best stated in the very mission of the Missouri Department of Natural Resources: "... to protect our air, land and water, preserve our unique natural and historic places and provide recreation and learning opportunities for everyone". Thank you for accepting this statement as part of the public comment on the three Parks cited above.

Zip Code: 55105

Dear Sir or Madam,

I am writing to express my concern for the future of Missouri's three newest state parks. Some of my fondest memories are of family hikes and camping trips to Missouri state parks. I greatly value Missouri's state parks and firmly support the continued protection of Bryant Creek State Park, Jay Nixon State Park, and Ozark Mountain State Park.

These lands are valuable both for the protection of fragile ecosystems and the enjoyment of Missouri residents. Missouri is home to beautiful, diverse ecosystems that foster a wide range of plants and animals. More and more, I am seeing increased development throughout Missouri, threatening the survival of these environments. I view the acquisition of Missouri's three new state parks as an important step in conservation. We must continue to protect these parks.

State parks are a unique and priceless attribute of Missouri. Many Missourians, including myself, deeply value the outdoors and the protection of natural areas. I strongly urge you to continue the protection of Bryant Creek, Jay Nixon, and Ozark Mountain State Parks.

**MISSOURI FARM BUREAU FEDERATION**

*P.O. Box 658, 701 South Country Club Drive, Jefferson City, MO 65102 / (573) 893-1400*

On behalf of Missouri Farm Bureau, we applaud the decision to conduct public meetings and a public comment period regarding the future of three state park properties. The transactions resulting in the state's acquisition of these properties during the previous administration were anything but transparent.

In comments submitted for the record regarding the proposed Rock Island Trail project, we highlighted the lack of transparency prior to the public comment period. In addition, we noted that local landowners who attended informational meetings hosted by local legislators were overwhelmingly opposed to the proposed trail.

As the department deliberates on the proposed Rock Island Trail and the three newly acquired state park properties, we urge you to give due consideration to the views of those who live, work and pay taxes in Missouri. The residency status of many who submitted comments electronically regarding the proposed Rock Island Trail is unclear. However, at least 100 comments specifically reference out-of-state residency, including 80 by individuals residing in New Jersey, California, Florida or one of 22 other states. Furthermore, it is apparent that virtually all of the comments in opposition are from Missouri residents.

The prospect of invoking the federal government's power of eminent domain to take private property for the proposed trail is in itself a compelling argument for giving emphasis to the views of those affected.

In short, regarding the ultimate disposition of the three newly acquired state park properties, we urge the department to give added weight to the views of local residents. We appreciate the opportunity to comment.

Blake Hurst  
President, Missouri Farm Bureau

Honorable Eric Greitens  
Governor  
Room 216  
State Capitol Building  
Jefferson City, Missouri 65102

January 6, 2018

**Re: Missouri's New Public State Parks Should Benefit Everyone – Don't Sell**

Dear Governor Greitens,

The Missouri state motto *Salus Populi Suprema Lex Esto* means *let the welfare of the people be the supreme law*. Missouri State Parks exemplify our state motto as proven by the overwhelming passage of the Parks, Soils, and Water Sales Tax in every Missouri County in 2016 with nearly 80% of the vote. This kind of support is a mandate in favor of public parks. It is rare when the state has the opportunity to expand access to state parks and we hope that you will continue the bipartisan tradition of preserving land for the welfare of all Missourians.

Missouri State Parks has celebrated over 100 years of supporting the welfare of all Missourians through access to trails, rivers, lakes, camping, interpretive events and more. We ask that you preserve and protect the new Ozark Mountain State Park, Bryant Creek State Park, and Jay Nixon State Park. We expect you will consider the future of the Eleven Point State Park soon and we ask for you to preserve this land as well. Our state parks system is a point of pride for an overwhelming majority of Missourians throughout the state.

The Missouri State Parks website details the positive economic impact that over 18 million visitors a year have for the state and local communities. An economic impact study reviewing the year 2011 estimates that:

Total annual expenditures of state park visitors in 2011 were approximately \$778 million. The overall economic impact of these expenditures is estimated at \$1.02 billion in sales, \$307 million in payroll and related income, and \$123 million in federal, state, and local taxes. Also, visitors' expenditures support 14,535 jobs.

The clear economic benefits of state parks aside, we hope that you will ensure that all people have access to state land and public resources now and into the future. You have a connection to the outdoors as you enjoy turkey hunting and other outdoor activities. We hope that you will take this appreciation, recognize its importance, and choose to let the welfare of the people be the supreme law through the protection of this land for public use. Please also recognize the

submission of 897 people who signed MCE's petition in support of keeping and opening the new state parks during the decision making process.

Sincerely,

A handwritten signature in black ink that reads "Heather B. Navarro". The signature is written in a cursive style with a large, stylized initial 'H'.

St. Louis, MO 63118

Cc: Brian Ellis – Missouri State Parks

Submitted on January 6, 2018

Dear Governor Greitens,

Do not sell our new state parks! Missourians enjoy one of the best state park systems in the country because we choose to invest in our natural resources for the benefit of everyone. This was proven during your election when Missourians in every single county voted nearly 80% in favor of continuing the Parks, Soils, Water Sales Tax. People love to hike, bike, fish, float, camp, hunt and more in our state parks. Missourians have enjoyed our state park system for 100 years. Adding state parks to the system is a bipartisan tradition in our state that should continue under your governorship. Please keep and open Ozark Mountain State Park, Bryant Creek State Park, Jay Nixon State Park and all lands acquired for new or expanded state parks!

Sincerely,

Concerned Missourians
