

Jones-Confluence Point State Park  
Katy Trail State Park (east section)  
Public Meeting Updates 2022

Confluence

A prescribed burn was completed successfully that encompassed 300 acres.

The development of a new half-mile trail with hard surfacing on the levee with views of the Mississippi River was announced.

The planting of 600 prairie cordgrass pots was completed and the broadcasting of native forb and grass seed.

The confluence web page was updated.

Three presentations were provided for groups and a volunteer planting event took place.

A coordination meeting was held with neighboring partners; the Audubon Society and the Riverlands Migratory Bird Sanctuary.

Katy Trail

Four tram rides are taking place for visitors to experience the trail.

We are participating with Great Rivers Greenway and St. Charles County in the development of a new Katy Trail connection at Pitman Hill Road in St. Charles.

Coordination is ongoing with the City of St. Charles concerning the Riverpointe Development and a new Katy Trail alignment in the area along South River Road.

Projects completing surfacing repairs, canopy trimming and debris removal from bridges have been performed.
