of Natural Resources  
Division of State Parks

# Nathan Boone Homestead State Historic Site

## Accessibility Information

The symbol  indicates that the specified area is fully compliant with Americans with Disabilities Act Accessibility Guidelines (ADAAG).

### **Contact Station Complex**

The parking lot is gravel. The contact station is accessible via an entrance ramp. This ramp is railed and provides a spacious deck at the entrance.

A concrete path extends past the contact station to the site's restroom, which provides side-transfer toilets, accessible lavatories and electric hand dryers.

### **Nathan Boone Home and Historic Area**

A hard packed gravel path (approximately 1/8 mile) leads past the Boone family cemetery to the Nathan Boone home.

The home is accessible via a ramp on the west side of the building.

Arrangements can be made for parking closer to the home. However, access to the home from this parking is not necessarily wheelchair accessible.
